9th International Workshop on Biomedical Image Registration

16 and 17 June 2020

Welcome to Portorož, Slovenia, for WBIR 2020!

The workshop brings together leading researchers in the area of biomedical image registration to present and discuss recent developments in the field, including methodological innovations and advances in the performance and validation on existing and novel applications. The workshop will include both oral and poster presentations, exciting keynote lectures, all with ample opportunities for discussion. At the social events you will enjoy the warm and relaxing Adriatic seaside along with authentic Mediterranean cuisine and excellent drinks.

We are looking forward to meeting you in Portorož,

Žiga Špiclin
Jamie McClelland
Jan Kybic
Orcun Goksel

MICCAI Society Endorsed Event

Reasons to visit Portorož

Located in the heart of Europe, where the Alps, the Mediterranean, Karst and Pannonian Basin meet.

Arrive via nearby airports at Ljubljana, Trieste or Venice

Wide range of hotels at noticeably friendly rates

Discover the popular sandy and stone beaches and the wild beaches under the flysch cliffs

It's time for therapy: dive into salt pan mud and brine, pleasant climate, and the sea water

Enjoy the rich and juicy cuisine and a variety of local wines and craft beers

From water sports to boat trips – discover your new sea passion!

Stroll the cosmopolitan promenades to find entertainment in casinos, night clubs and beach bars

Walk the romantic narrow streets of Piran, visit its amazing aquarium and experience the lively Tartini square

Visit the ancient saltpans, "where sun loves the sea and changes it into salt"

Take a day-trip to the UNESCO Heritage listed Postojna Cave and the Škocjan Cave

Or simply take a deep breath, inhale the sea air full of salty negative ions and enjoy the views of the relaxing coastal landscape.
